

THE YARD

LOCATION HIRE

Set in 1,000 acres of rolling Hampshire countryside, the landscape at Chilton Manor Farm is exceptionally breathtaking. There are a diverse range of spaces to suit many brief with expansive views - from fields of corn, enchanting woodland, to the backdrop of our derelict shepherd's hut. THE YARD

Originally a dilapidated sheep pen, in 2019 local designer Hannah James of Honour & Co. created a space with the aim of inspiring and delighting. The design and aesthetic brings an industrial, urban look to the farm's rural, bucolic surroundings. A pared back and organic aesthetic, is punctuated by aged brass fixtures and industrial style doors which reflect the shape and style of the black metal rail fencing bordering the sheep fields opposite.

The Yard Being of historic importance meant that most of the original features within the listed buildings were kept, adding to the uniqueness and aesthetic appeal of the Yard.

THE YARD

THE BARN

The barn is a large, original agricultural space, purposefully left raw and undone. It has impressive height and retains the charm and character of days gone by.

At one end currently sits the iconic skate ramp, which has seen the likes of many a familiar name reside on during live events, and which continues to be a unique and appealing element of the space.

THE LOFT

The Loft is a generous room, dramatic in size and is a space which feels contained and cosy. With its woven straw lampshades and original, untouched two tone limewashed walls, it delivers a really interesting and inspiring blank canvas.

*We regret that The Loft can only be accessed by a staircase.
