THE YARD

THE YARD & COURTYARD

The Yard is ideal for smaller gatherings and can seat up to 40 people. The long narrow space inside the cafe, lends itself to curating dramatic long tables, however more guests can be accommodated if you would like to host a buffet or cocktail party, up to maximum of 60 guests, with the additional use of the courtyard for those warm evenings.

THE YARD

THE BARN & LOFT

The barn is a large, original agricultural space, purposefully raw and undone, it has impressive height and retains the charm and character of days gone by. At one end currently sits the iconic skate ramp, which has seen the likes of many a familiar name reside on during live events, and which continues to be a unique and appealing element of the space.

The Barn offers a fantastic place to gather & dance.

The Loft is a generous room, dramatic in size and is a space which feels contained and cosy, yet more than capable of filling with a crowd. With its woven straw lampshades and original untouched two tone limewashed walls, it delivers a really interesting and inspiring blank canvas.

The Barn & Loft are hired together and can accommodate 100 + people.

*We regret that The Loft can only be accessed by a staircase.
